MOHAMMAD SHIYABUDDEEN

Software Engineer | Full Stack Developer | Data Engineering

Bangalore, Karnataka, India | +91 7022645986 | shihabputtur2@gmail.com | linkedin.com/in/mohammad-shiyabuddeen | github.com/mohdshiyab | shiyab.vercel.app

PROFESSIONAL SUMMARY

Software Engineer and Full Stack Developer with hands-on experience in full-stack web applications, relational data modeling, and automated ETL workflows using JavaScript (ES6+), Python, React.js, Next.js, Node.js, Express.js, and PostgreSQL. Currently interning in Data Engineering at Stellapps Technologies, optimizing PostgreSQL database operations, Linux cron routines, and ETL pipelines with Pentaho (PDI) and Apache Hop. Architected an AI healthcare system integrating Gemini API, Vapi AI, and WebRTC that earned positive investor commendation at the Karnataka K-Tech Incubation Centre.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, SQL, C, C++, HTML5, CSS3
- **Frontend Development:** React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Redux, Responsive Design
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, WebSockets (Socket.io), WebRTC, JWT Authentication
- **Databases & Data Engineering:** PostgreSQL, MongoDB, Mongoose, Relational Modeling, ETL, Pentaho (PDI), Apache Hop
- **AI & Cloud Tools:** Gemini API, Vapi AI, AssemblyAI, Docker, Vercel, Render
- **DevOps & Developer Tools:** Linux / Shell Scripting, Cron Jobs, Git, GitHub, Postman, Cloudinary, Figma, Microsoft Excel, Agile

PROFESSIONAL EXPERIENCE

Data Engineering Intern — Stellapps Technologies Private Limited — Bangalore *Oct 2026 – Present*

- Engineered and maintained production PostgreSQL database schemas, constraints, indexing, and relational models on Linux servers.
- Authored optimized SQL queries using multi-table JOINs, filtering, and aggregations to retrieve and analyze structured dairy supply data.
- Executed high-volume batch data ingestion and migration using PostgreSQL \copy utilities, validating schema consistency across datasets.
- Built and executed automated ETL transformation workflows with Pentaho Data Integration (PDI) and Apache Hop to sync data across PostgreSQL databases.
- Configured Linux shell scripts and cron jobs to automate scheduled database routines, backups, and operational data pipelines.

Full Stack Web Development Intern (MERN) — SuprMentr Technologies Pvt Ltd — Remote *Jan 2026 – Apr 2026*

- Built an end-to-end full-stack real estate platform (React, Tailwind, Node.js, Express, MongoDB) with property search and filtering.
- Implemented secure authentication and session management using JSON Web Tokens (JWT), bcrypt encryption, and protected routes.
- Refactored React component hierarchies and optimized client-side state handling, improving application responsiveness by 25%.
- Collaborated across teams within an Agile workflow using Git and GitHub for version control, code reviews, and sprint delivery.

PROJECTS

Automated Health Management System — AI Clinical Platform github.com/mohdshiyab/AutomatedHealthCare

Next.js, React, Node.js, Express, MongoDB, Clerk, Gemini API, Vapi AI, AssemblyAI, WebRTC

- Built an AI-powered healthcare ecosystem featuring an autonomous voice/text medical agent integrating AssemblyAI (Speech-to-Text) → Gemini API (Reasoning) → Vapi AI (Voice Synthesis) for diagnostic workflows.
- Engineered secure peer-to-peer WebRTC video consultations, slot scheduling, and automated PDF medical report generation.
- Implemented multi-tier Role-Based Access Control (RBAC) via Clerk across patient, clinician, and admin verification portals.
- Presented the platform at Karnataka K-Tech Startup Incubation Centre, earning formal investor validation and commendation.

NextGen-Hire — Technical Interview & Screening Platform github.com/mohdshiyab/next-gen-hire

React.js, React Router, Node.js, Express, MongoDB, Mongoose, WebRTC, Socket.io, JWT

- Built a dual-sided technical hiring platform connecting enterprises with senior engineers for standardized live coding interviews.
- Developed an interactive in-browser live code editor synchronized in real time via Socket.io alongside WebRTC video and screen-sharing.
- Engineered separate recruiter and candidate dashboards with JWT authentication, bcrypt encryption, and structured scoring rubrics.

LiveConnect — Real-Time Chat Application github.com/mohdshiyab/real-time-communication

React (Vite), Tailwind CSS, DaisyUI, Zustand, Socket.io, Node.js, Express.js, MongoDB, Cloudinary

- Engineered a responsive real-time chat platform with bidirectional WebSocket communication via Socket.io and state via Zustand.
- Implemented live online/offline user presence tracking, persistent MongoDB chat histories, typing indicators, and optimistic UI updates.
- Integrated Cloudinary API for optimized image sharing and CDN-backed media hosting with resilient client-server error handling.

CERTIFICATIONS

- **Microsoft Certified: Azure Fundamentals** — Microsoft (Jan 2026)
- **Artificial Intelligence Fundamentals** — IBM (Aug 2025)
- **RDBMS PostgreSQL Training** — IIT Bombay (Nov 2025)
- **AWS & React: Deploy with ELB** — Udemy (Aug 2024)

ACHIEVEMENTS

- **Investor Pitch Commendation:** Karnataka K-Tech Incubation Centre
- **Winner (2x):** National Hackathons at SRINATHON 2.0 (SIT)
- **First Prize, UI/UX Design:** YENSPECTRUM 2024 (YIT)
- **Finalist:** Selected for Unfold 2024, Asia's largest Web3 Hackathon
- **2nd Place, Startup Pitch:** 21st ISTE Karnataka State Convention 2025

EDUCATION

Yenepoya Institute of Technology — *Bachelor of Engineering in Computer Science* *Nov 2022 – Jul 2026*

St. Philomena Pre-University College — *Pre-University Course (PCMC)* *Mar 2020 – Apr 2022*
