

MOHAMMAD SHIYABUDDEEN

Full Stack Software Developer | AI & Modern Web Applications

Mangalore, Karnataka | +91 7022645986 | shihabputtur2@gmail.com | linkedin.com/in/mohammad-shiyabuddeen | github.com/mohdshiyab | shiyab.vercel.app

SUMMARY

Full-stack developer skilled in JavaScript, React, Next.js, and Node.js, with hands-on experience building AI-integrated applications — including a healthcare platform with a voice/text AI doctor (Gemini API, Vapi AI) that was presented at the K-Tech Startup Incubation Centre, Mangalore. Delivered a freelance website redesign for an international client and improved application responsiveness by 25% during a MERN internship.

SKILLS

- **Languages:** JavaScript (ES6+), Python, C, C++, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Redux
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.io, WebRTC
- **AI Integration:** Gemini API, Vapi AI, AssemblyAI
- **Databases:** MongoDB, Mongoose, Drizzle ORM
- **Tools & Platforms:** Docker, Git, GitHub, Postman, Vercel, Cloudinary, Figma

PROFESSIONAL EXPERIENCE

Freelance Web Developer — Evolbiz Technologies (UAE, Remote)

Jul 2026

- Redesigned and enhanced the company website with a modern, responsive UI to improve user experience.
- Improved on-page SEO through metadata, page structure, and performance optimizations to increase search visibility.
- Developed and maintained backend functionality to support website features and improve reliability.
- Collaborated directly with the client to gather requirements, implement changes, and deliver the project on schedule.

Full Stack Web Development Intern (MERN) — SuprMentr Technologies Pvt Ltd — Remote

Jan 2026 – Apr 2026

- Built a full-stack real estate platform (React, Tailwind, Node.js, Express, MongoDB) with property listings, search/filtering, JWT authentication, and a responsive user dashboard.
- Optimized React components and state handling, improving application responsiveness by 25%.
- Collaborated across teams using Git version control and Agile workflows to deliver capstone projects.

PROJECTS

Automated Health Management System *Next.js, React, Tailwind, Node.js, Express, MongoDB, Clerk, Gemini API, Vapi AI, AssemblyAI, WebRTC*

- Built an AI-powered healthcare platform with a voice/text AI doctor (AssemblyAI speech-to-text → Gemini API reasoning → Vapi AI voice synthesis) that generates automated PDF medical reports and manages medicine reminders.
- Implemented secure WebRTC video consultations, credit-based appointment booking with real-time slot management, and role-based access for patients, doctors, and admins, including an admin approval workflow for doctor verification.
- Presented the platform at the K-Tech Startup Incubation Centre, Mangalore, as a demonstration of AI-driven telemedicine.

NextGen-Hire — AI-Ready Interview Platform *React.js, React Router, Node.js, Express, MongoDB, Mongoose, WebRTC, Socket.io, JWT*

- Built a two-sided recruitment platform connecting companies with senior developers for live technical interviews, replacing internal screening with standardized, transparent evaluations.
- Developed recruiter and interviewer dashboards, a built-in online code editor, and real-time WebRTC video interviews with screen-sharing and recording for technical screening.
- Implemented JWT authentication, bcrypt password hashing, and role-based access control across company and interviewer portals.

github.com/mohdshiyab/next-gen-hire

LiveConnect — Real-Time Chat Application *React (Vite), Tailwind, DaisyUI, Zustand, Socket.io, Node.js, Express, MongoDB*

- Built a responsive real-time chat platform with secure JWT-based authentication, persistent chat history, and live online/offline status tracking.
- Developed scalable backend APIs with Socket.io real-time messaging, Cloudinary-based image sharing, and robust client-server error handling.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals — Microsoft (Jan 2026)
- Artificial Intelligence Fundamentals — IBM (Aug 2025)
- RDBMS PostgreSQL Training — Indian Institute of Technology, Bombay (Nov 2025)
- AWS & React: Deploy an Auto-Scaling E-Commerce App with ELB — Udemy (Aug 2024)

ACHIEVEMENTS

- Won 2 national-level hackathons at SRINATHON 2.0, Srinivas Institute of Technology.
- First Prize, UI/UX Design — YENSPECTRUM 2024, Yenepoya Institute of Technology.
- Selected for Unfold 2024, Asia's largest Web3 hackathon.
- 2nd Place, Startup Pitch — 21st ISTE Karnataka State Level Student Convention 2025.

EDUCATION

Yenepoya Institute of Technology — B.E. in Computer Science

Nov 2022 – Jul 2026

St. Philomena Pre-University College — PPMC

Mar 2020 – Apr 2022
